

# Rotax Engine Registration Information

Please use the latest version of this formatted file. The last six digits of the file name are in the yymmdd format.

Start by saving the file under a new name using this format: “912 sn x,xxx,xxx – yymmdd.doc“. The x’s are the serial number for the engine, and the last six digits are today’s date.

Enter data next to the blue circle. If you cannot see the blue circles, click the ¶ (paragraph) symbol on your Word tool bar.

If the aircraft is owned by a company, please use that company’s name. If it is personally owned, use the individual’s name. The general rule is, use whatever name is on the US registry with the FAA. If the owner of the aircraft is a company, please put in the name of the company contact and their email address.

Having completed and saved the file, attach it to an email and send it to [donato@ussportaircraft.com](mailto:donato@ussportaircraft.com)
